

Warrington Soccer Club Coronavirus Preparedness Plan

After review of the information from the CDC and state and local health departments, please adhere to the following:

For Coaches:

Notify the board if following occurs (Eric Killenbeck - president@warringtonsoccerpa.org and the club Risk Management board member Keith Sink - riskmanager@warringtonsoccerpa.org):

- Coach or a member of their immediate family is exposed to or tested positive for the Coronavirus.
- Player or parent reports to you that they have been exposed to or tested positive for the Coronavirus, please alert the Board immediately.

Guidelines for coaches:

- Keep a close eye on players for those who might have flu-like symptoms.
- If a player gets sick at practice or a game, or they are exhibiting flu-like symptoms, please isolate that child and call their parent to pick them up separately.
- If a player is out sick, please confirm with the parents that the player has been fever free, without medication, for at least 48 hours prior to your next practice or game.
- Wash all pinnies and their bag after every use or alternatively ask players to bring a light and dark shirt for use at practice to eliminate use of pinnies.
- Encourage your players to wash their hands and sanitize their equipment regularly.
